

REMARKS

In the action of September 8, 2005, the examiner objected to claims 1, 10 and 11 on the basis of certain informal claim language; rejected claims 1-6 and 9-11 under 35 USC 102 as anticipated by Beier; and rejected claims 7 and 8 under 35 USC 103 as unpatentable over Beier in view of Grabe.

Applicant's attorney has reviewed the response of the examiner to the previous amendment, which appears on page 4 of the action. Claim 1 has now been amended to specify that the chamber within the cover assembly which contains loose filling and also contains the removable member defines a separate volume within the cover assembly.

The entire interior of the cover assembly cannot now be interpreted as being the claimed "at least one chamber". Accordingly, allowance of claim 1 is respectfully requested. Since claims 2-9 are dependent upon claim 1, those claims are also allowable.

Claims 10 and 11 have been cancelled.

The application is now in condition for allowance and such action on the part of the examiner is respectfully requested.

This is to request a one month extension of time. Enclosed is the required fee of \$120.

The Commissioner is authorized to charge any deficiency or credit any overpayment to Deposit Account 07-1900.

Respectfully submitted,  
JENSEN & PUNTIGAM, P.S.
